

Pointer Example

```
#include <stdio.h>

int main() {
    int num = 40;
    int *pt;

    pt = &num;
    int *anotherpt = &num;

    *pt = 30;
    printf("%d\n", *anotherpt);

    return 0;
}
```

Section	Address	Value	Label
stack frame for main	0x248		
	0x24c		
	0x250		
	0x254		
	0x258		
	0x25c		
	0x260
